Educating the Whole Person

SNF Paideia designated courses, designed and taught by faculty from all of Penn's twelve Schools, aim to examine the theory and practice of dialogue across differences and to apply a dialogue lens to issues of citizenship, community service, or individual and community wellness. Open to all Penn undergraduates, SNF Paideia designated courses are noted on student transcripts. In addition, the Program identifies and recommends other courses offered at Penn that focus on wellness, service, citizenship, and dialogue.
